GASOLINE DEMONS MAKE REMARKABLE TIME ON TRY OUTS.

**Oldfield to Stop Watches
Drove Faster
Than Gasoline Car
Record.**

Oldfield drove his Benz this morning on the Daytona beach, and was ever covered by a gasoline automobile. He made the gasoline car record on the beach in 20 1-5 seconds. He covered the eighth mile posts in 23 2-5 seconds. He declared that he did not feel over two-thirds open. He was merely spinning. He was accustomed to the new car. The remarkable time made by Oldfield and his confidence in being able to adjust all records made by any car over any course in the world, has added great interest to the speed-car trial.

The Benz was worked out for about twenty miles and Barney declared that it did not miss a shot. It has all adjustments perfect and will attempt nothing until the DePalma race, except to run himself to the car and the conditions of the beach.

Ralph DePalma put in an appearance on the beach at 11:00 o'clock, about three-quarters of an hour before Barney Oldfield came tearing down the South Bridge approach.

DePalma followed out the same policy this morning as did Oldfield, of avoiding the spectators at the clubhouse, who yesterday overran the place when Oldfield stopped, and almost caused Barney to have an attack of writer's cramp, so many autographs did he affix to different cards.

DePalma stopped this morning about four miles down the beach to adjust several parts of the motor, and then came tearing up.

Again this afternoon shortly after 2:00 o'clock after posing for press photographers at his garage he left for the beach. He was in a happy frame of mind all day and talked with the crowd that gathered around his machine before making the afternoon trial.

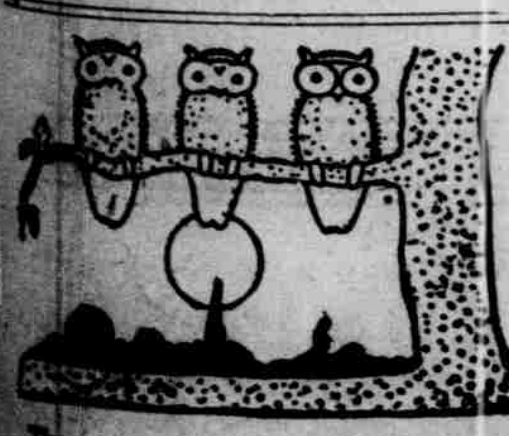

"How fast were you going this morning?" was the question one of the bystanders with a little more nerve than his fellows, asked.

"Oh, I did not open up much this morning. I was only making about a hundred miles," replied the cheery little pilot.

**A MUSICAL TREAT IS
PROMISED IN NEAR FUTURE**

Thos. H. Lane, whose magnificent baritone voice has made him in great demand for musical entertainments this season, will give a concert at the home of Col. and Mrs. M. Huston on South Beach street, Monday evening, March 21, that promises to be an event of the season in the musical line as all the best talent in the city will be included in the program.

Mr. Fortson was out of the city at the time.

DIRECTORS MAKING PREPARATIONS FOR MEET.

The board of directors of the Florida East Coast Automobile Association met this morning to discuss preparations for the racing events, and general information will be published in tomorrow's Daily News. An admission fee of 25 cents will be charged persons entering the enclosure of the club house property. This small charge will assist in paying the big expense of conducting the racing events.

Opportunity will be afforded persons to see the races who do not care to pay this small sum, although it is presumed that few will object to so small a charge to see the greatest racing events in the history of automobilism.

Unlike many racing events, the Daytona Beach Speed Carnivals are not conducted as money-making affairs and high prices charged for the privilege of witnessing them, but the charge has been placed as low as it is possible and make any charge at all.

A PLEASANT SOCIAL AFFAIR

A pleasant social entertainment was enjoyed at the home of Mr. and Mrs. John Young, Ridgewood avenue, Wednesday afternoon from 3:00 to 5:00, given by his brother, Robert Young, of Pittsburg, who is spending the winter here. About twenty-seven guests were present. This was one of the delightfully informal affairs in which the enjoyment consists in the true spirit of cordiality which it is carried out, rather than in an elaborate program. There was a very pleasant program however. The host of the afternoon made a short and humorous address which was responded to in kind by Mayor E. W. Greene. John Young and Miss Young gave violin and piano selections. Mr. Young accompanying himself on the violin with such old Scotch airs as "Bonnie Doone," and "Annie Laurie." James Bryden of Milwaukee, recited Burns' "Highland Mary," and the afternoon was otherwise spent in social conversation and partaking of the variety of dainty refreshments served.

CAUSE OF ECZEMA EXPLAINED.

After years of debate medical authorities are now agreed that Eczema and other skin diseases are not seated in the blood, but are caused by myriads of microscopic animals gnawing the flesh just below the epidermis. The patient is perfectly healthy, it is only the skin that is diseased.

Hence, scientists are now agreed that you must cure the skin through the skin. The medicine must be in liquid form in order to penetrate properly. And we can say with confidence that we have the true remedy for Eczema in our store.

The instant you wash with this soothing liquid you will find the itch relieved. We positively assure you of this. Will you try a bottle (at only 25c), on our recommendation? Ask for D. D. D. Prescription at the Atwood Pharmacy.

A very pleasant time was spent at the winter home of Mr. and Mrs. H. B. Whitcomb, on South Palmetto avenue, Wednesday evening by a number of their northern friends, who are sojourning in the city, in celebration of Mr. Whitcomb's 73rd birthday.

A JOINT SNAKE ADDED TO J. W. BOOTH'S COLLECTION

E. N. Waldron several days ago captured a very peculiar snake, said to be a joint snake, which he yesterday turned over to J. W. Booth for his Florida collection at the rear of the Bingham & Maley Co.'s store.

The snake is about two feet in length, is very prettily marked and the tail has a peculiar spiked appearance and is for several inches of a brownish color, quite different from the body. The snake has a glassy look and is supposed to break into a number of joints or pieces if struck with any force.

N. ERICKSON TAKES HIS OWN LIFE.

WELL KNOWN FIGURE IN DAYTONA, AND RESIDENT OF COTTAGE AVENUE, SUICIDED YESTERDAY.

Nick Erickson, a well known figure in Daytona, and a resident of Cottage avenue, committed suicide Wednesday afternoon by shooting himself in the head with a shot gun.

Mr. Erickson, who was naturally of a genial, kindly temperament, had that failure, which so often accompanies an easy disposition like his, of over indulgence in liquor. He had been drinking again heavily for several days past, and it is undoubtedly to this fact that his rash act is due although he showed no sign of depression just previous to his self murder.

It seems that on the preceding day he had told his wife that he was going to kill himself, but she did not really take it seriously thinking it merely a fancy of his unbalanced condition at the time.

He was around as usual, and during the forenoon went into R. S. Maley's hardware store and purchased a tank for a gasoline stove. Again in the afternoon, shortly after 2:00 o'clock he entered the store and asked for a box of cartridges. The clerk showed him a box of smokeless cartridges and said the price was seventy cents. Mr. Erickson said he had only been paying forty cents and was told that that was the price for the black powder cartridges, whereupon he paid for a box and departed with them saying to Mr. Maley, who was busy, close at hand, "Good bye, Bob, you won't see me again; I am going to shoot myself."

As he was in an apparently cheerful frame of mind, Mr. Maley naturally thought he was only joking and called back, "Good bye, Nick; but I wouldn't do anything like that."

He left the store by the rear door and as he passed the office, he also said good bye to the bookkeeper, Miss Dittman, who was at the desk.

Going home, he secured a single barreled shot gun belonging to his youngest son, Ralph, and as he passed out of the house, said to his wife "I am going to do what I said I would yesterday."

This time Mrs. Erickson felt some uneasiness and at once sent word to F. R. Hunt, who, with his father, is rooming in the house.

Messrs. Hunt were at the post office, and the younger man at once set out with Ralph Erickson to find the boy's father.

Mrs. H. M. McDonald, living across the street from the Erickson's, had followed Mr. Erickson for some distance and told Mr. Hunt and Ralph that he had gone out Loomis avenue. They followed this direction, and a lady living near the railroad said he had passed that way, on a run, sometime before.

The two kept on until they reached the property of L. Hahne west of the railroad and on the south side of Loomis avenue and at Mr. Hunt's suggestion they turned in this place, thickly covered with brush and weeds to look for him, going in by different paths. In a few moments Mr. Hunt heard Ralph call "Here he is," and breaking his way rapidly through the tall weeds he found the boy standing over the dead body of his father, lying close to a well pump in the field, not far from the road.

Mr. Erickson had placed the muzzle of the gun in his mouth and discharged it by tripping the trigger with a palmetto blossom stalk, which was lying near the gun, literally blowing his head to pieces.

Justice H. T. Titus, the coroner, was notified, and viewed the body, but owing to the clear case of suicide did not empanel a jury.

A colored man by the name of Wm. Miller says he heard a gun shot at about three o'clock, and that was probably the time Mr. Erickson killed (Continued on fourth page)

A BOLD DAYLIGHT ROBBERY.

COTTAGE ON OCEAN BEACH ENTERED THIS MORNING AND VALUABLE JEWELRY TAKEN.

A bold daylight robbery occurred this morning at Daytona Beach, at about half-past ten o'clock.

While Mrs. McDonald, a winter visitor occupying Barney cottage, on the beach, was upon the ocean beach with other members of the household, interested in the capture of a large stingray, the house was entered and jewelry of considerable value carried off.

The maid met a man coming from the house and he questioned her as to renting rooms. Later this man hired a horse and ran about at the Beach Livery, saying he was in a hurry to come to the city. He took a driver from the stable with him and this man reported on his return that his passenger took the Pullman train, south bound, at Ormond, purchasing a ticket for New Smyrna, and steps have been taken to apprehend him at that place.

"CANADIAN ROCKIES" TRAV- ELOGUE SCORES SUCCESS.

Those who were fortunate enough to be among the large and fashionable audiences which gathered to witness Mr. Lincoln's Travelogue at the Opera House last night, are all cancelling their previous engagements for Friday night and arranging to again see a Travelogue, this time an entirely new production, unexcelled in picturesqueness and natural beauty.

The subject of the next, and last, Travelogue will be, The Grand Canyon of Colorado, the Yosemite Valley and Yellowstone National Park. No scenic production ever thrown on any screen can equal these gems of nature, in their own true colors, adequate description of whose glories are impossible with printer's ink.

The motion pictures last night were the acme of perfection and the sensation film of the Wright Bros. Aeroplane Flights won special applause.

For Friday night an entirely new program of motion pictures is on the program.

Last night there were several theater parties and on Friday a party of fifty from one of the large hotels will be in attendance. It has been arranged to repeat after the close of the regular program the Aeroplane Flights and the great Lumbering Scenes in the Italian Alps for this party, but all of the audience are invited to remain. This in addition to the regular program.

Prices fifty cents; children thirty-five cents.

By L. C. DEMAREE.
One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River. Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon this beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide-spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistering leaf of the grand magnolia which nature has varnished as no artists' brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogamous forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another, so do our homes differ in outward appearance and structural beauty for one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a fact must be apparent to the most

superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite, —where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards.

Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit. Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and Squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round you are reminded of Goldsmith's couplet where Smiling spring its earliest visit paid And summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture. As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out. The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuctoo, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horse power, up to a 200-horse power, and all degrees of speed from acanter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

The mean average temperature 80 degrees in the summer and 70 degrees in the winter, with an occasional extra rise or drop of a few days' duration, marks this as one of the most healthful locations in any section of the country, north, east, south or west.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth and air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straightaway record has been made, and all these records it continues to hold without rivalry.

The sand of this famous speedway is composed largely of the shells of the coquina clam, which are about one-half inch long and very thin. For ages Nature has been rolling them up, washing them back into the surf and pulverizing them. Examined under the microscope each particle is round, unfit for mortar, builders say, because its smoothness prevents its holding together, yet, arrange to contemplate, the very moment a wave leaves the wet, apparently soft beach, these round particles settle down into a cement almost as hard as asphalt, beyond the comprehension of one who has not seen it. Repairs are unnecessary, as twice each 24 hours it is entirely rebuilt by the tides. The beach has a width of 300 to 500 feet, and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobiling some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors.

Seabreeze contains a handsome opera house and a Congregational Church; at Daytona Beach is a M. E. Church. An excellent high school is situated near the division line between the two towns. Both towns have enterprising business establishments, as is evidenced by the advertisements on the left and right.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy. Flowering shrubs have been planted, which are covered with a wealth of bloom both summer and winter.

Work of rebuilding the Clarendon hotel is now in progress. This magnificent fire-proof structure, which is to contain 250 rooms, when completed will be the peer of any hotel in Florida. The site is immediately north of the clubhouse of the Florida East Coast Automobile Association.

The Ocean Pier is a great attraction to fishermen and it is lined summer and winter with enthusiastic disciples of Izak Walton, who find it nothing unusual to land fish weighing several hundred pounds.

PROGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in state-ly grandeur during the lapse of by-gone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach. Many fine residences are maintained on either side of the river, most of them embellished with sub-tropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobilism, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers. Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road (passing Number Nine) and is a drive all tourists may enjoy.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.

From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

LAKE HELEN
Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

LOCAL ITEMS.

Rev. W. G. Fletcher left this morn-
 ing on his return to Talahassee.

 radiator. Reward if left at No. 116
 Loomis avenue 9

Mrs. P. Leonard, a sister of Com.
 Conrad Stubenbord, of Ridgewood av-
 enue, arrived from New York Wed-
 nesday night.

Mr. Snell will deliver a lecture and
 views on Egypt tonight at the First
 Congregational Church, the third of
 the series of six, which are being
 given regularly on Thursday evenings.
 These lectures are of especial inter-
 est to the Sunday School children,
 and they are cordially invited to be
 present.

Mr. and Mrs. Frank Willets and
 infant son, John Randall Willets, ar-
 rived Wednesday night from Free-
 port, Long Island, N. Y., for a visit
 with Mrs. Willets' parents, Mr. and
 Mrs. J. J. Randall, on Ridgewood av-
 enue. Mr. Willets has for some years
 had the superintendency of Mr. Ran-
 dall's extensive improvement opera-
 tions at Freeport. They will go north
 with Mr. and Mrs. Randall about the
 first of April.

SEA BREEZE, Mar. 9—Mr. and
 Mrs. Frederick C. Atkins and two
 daughters, Misses Florence and Ruth,
 of Hartford, Conn., arrived in Sea-
 breeze Sunday on a week's visit at
 the hospitable home of Mr. and Mrs.
 Walter J. Gamble, on Halifax av-
 enue. Mr. and Mrs. Atkins will be in
 the vicinity another week before
 leaving for other points of interest.

Mr. and Mrs. J. Ralph Wilcox have
 returned from a week's stay at their
 Tomoka home.

E. Benedict, granddaughter and
 housekeeper, who have been occupy-
 ing rooms in the Gilmore home since
 their return from Southern Florida,
 left Wednesday morning on their re-
 turn to Iowa.

Rev. Samuel L. Carter, a distin-
 guished divine, and wife, of East
 Orange, N. J. have returned from a
 short visit with friends at Sorento,
 and are pleasantly located with Dr.
 and Mrs. Evernden, on Oakridge av-
 enue, during the remainder of their
 stay in Seabreeze. Dr. and Mrs.
 Carter are widely traveled people,
 both in this country and on the con-
 tinent, and it is gratifying to have
 them express their preference for a
 home in our beautiful Seabreeze over
 all the places they have visited in
 Florida and elsewhere.

The Princess Issena has had a
 fine season and a splendid run of busi-
 ness especially for the month past.
 The overflow from the hotel is be-
 ing accommodated with rooms in the
 nearby cottages. It has entertained a
 number of distinguished guests this
 winter, none of whom have appealed

to the interest of other guests more
 than has Roger Clark, a prominent
 young New Yorker, who was sent
 here with his nurse several weeks
 ago to recuperate from an attack of
 pneumonia. It is pleasant to state
 that Mr. Clark is recovering health,
 and will be strong enough to start on
 his return north before many days.
 Shortly after his arrival at the Prin-
 cess Issena Mr. Clark received the
 appointment of assistant district at-
 torney of the City of New York.

It is a matter of congratulation to
 the ladies of the Seabreeze Sewing
 Circle, that in spite of inclement
 weather of their sales day to have
 realized something over \$100 from
 their bazaar work.

S. B. Day, a prominent banker, of
 Elyria, Ohio, who has been spending
 the month past at Seabreeze, left
 Tuesday on his return North. Mr. Day
 is a friend of F. J. Harpster, Ocean
 boulevard.

M. R. Knowlton, owner of the Post
 business block, Ocean boulevard, ow-
 ing to business interests which
 require his presence at Belfast, Me.,
 will not be in Seabreeze this season.

A party of eighteen, which includ-
 ed the following house guests from
 Mrs. F. Burgman's, Mesdames Dick-
 ey, Baylies, Rev. Ramsey, Mrs. Len-
 ell, Mrs. and Miss Robinson, H. V.
 Crawford, Mayor of Mount Claire, N.
 J., and daughter, and a number of
 friends made a trip to Number Nine
 in the Toronito Tuesday and had a
 delightful picnic.

Mr. and Mrs. M. E. Bliss returned
 Saturday from a week in Havana.
 The weather was ideal during their
 stay and they had an enjoyable trip
 both going and returning.

Col. W. F. Taylor, of Memphis, and
 Mrs. H. T. Phillips, of Atlanta, weath-
 er or no weather, are on the ocean
 pier casting their lines every day in
 the week, Sunday excepted. Being
 skilled in the sport, they usually

make a good showing for the time
 spent, and what they fail to realize
 in game, the trade winds bring them
 in a handsome rich tan and a fine
 appetite.

Mr. and Mrs. J. G. Robinson, bride
 and groom, all the way from Toronto,
 Canada, on their bridal trip, are
 spending a short time at the May-
 field. They leave Monday to attend
 the boat races at Palm Beach.

The surf bathing has been ideal this
 week and the beach a regular season
 boulevard for all kinds of parties and
 equipages.

A charter party went to the Inlet
 Wednesday morning in the Floridian.
 Among others, Mesdames Wasson,
 Baldwin, Hamilton, King, and Mes-
 senger were included.

Mr. and Mrs. R. J. Berston, Mr.
 and Mrs. H. C. Hamilton, Mrs. L.
 C. Radford, tourists, who have been
 spending some time on Valley street,
 leave this week for Eau Gallie to vis-
 it the Kentucky Military Institute
 where Mr. and Mrs. Berston have a
 son, McLellan, at school. They will
 return here for the races.

It was one of the most enjoyable

guests of the house and a number of
their friends. The prizes were
awarded as follows: ladies' first, a
hand painted picture, Miss Grace

Miss Margaret Hurd, Pennsylvania.
The gentlemen's first prize was
awarded C. F. Hurd, New York, seal
leather card case; T. O. Wieland, of
Connecticut, toilet water; Mr. Van-
dever, of Long Island, handsome set
of cards. Punch was served at the
close of the game.

Wanted the Proof.

"You look sweet enough to kiss,"
says the impressed man.
"So many gentlemen tell me that,"
cooly answers the fair girl.
"Ah! That should make you happy."
"But they merely say that," she re-
plies. "They merely tell me the facts
in the case and never prove their
statements."

He Got It.

Eva--As we strolled along he wa-
gered a box of chocolates that I
couldn't say the word "kiss." Belinda
--And did you try? Eva--Yes, but he
took the word from my very lips.

A Big Shadow.

We are told that the "smallest hair
throws a shadow." And so it does. It
throws a shadow over your appetite
when you find it in your food.--Ex-
change.

A good deed is never lost. He who
sows courtesy reaps friendship, and he
who plants kindness gathers love.

A Mean Landlord.

Mrs. Uptown (to lady caller)--I do
think we've got the meanest, most pe-
nurious and grasping old Shylock of a
landlord that ever lived. Caller--Why
do you remain here, then? Why not
try some other place if you don't like
the landlord? Mrs. Uptown--That's
just it! He's that mean he won't let
us get far enough behind with the rent
so it is really any object to us to move.

Eighth Annual Daytona Beach Speed Carnival

MATCH RACE BETWEEN

Oldfield and De Parma, March 15, 1910

Speed Tournament March 22, 23 and 24

GENERAL INFORMATION

An admission fee of 25 cents each day will be
charged all spectators within the enclosure to the races,
both the match event and the record trials. The
meet is not conducted as a money-making event, but
the small charges are made to help meet the enormous
expense of conducting the meets.

A fee of 50 cents will be charged all automobiles
and carriages parking west of the clubhouse along
Halifax avenue. The Florida East Coast Automobile
Association has leased this property for the occasion
and will exercise supervision over it.

Parking spaces for automobiles will be provided
on the beach at \$2.00 per day, or \$5.00 for all the
events in addition to the regular admission price. These
spaces may be purchased in advance at Hankins' Drug
store, and the purchasers will be entitled to the spaces
which they select, the first applying to have the choice.

The Ocean Beach has been set aside as a race
course March 15, and March 22, 23, 24, 25 and 26,
1910, and the Sheriff of Volusia County, and the
Florida East Coast Automobile Association jointly will
have charge of the same.

Those desiring to obtain privileges of selling re-
freshments in front of the clubhouse may apply to the
Secretary.

No persons except officials will be allowed on the
course during the races or while cars are being tried
out and anyone disregarding this rule will be subject
to arrest.

Owners of dogs are especially requested to keep
the animals off the beach, as their presence would
endanger the lives of drivers. Dogs found on the beach
during the days of the events will be summarily shot.

Only members of the Florida East Coast Auto-
mobile Association, their immediate families and a
limited number of guests are allowed access to the
clubhouse. No male resident of Volusia County is
eligible to be a guest.

All races will either start or finish in front of the
grand stand.

Grand stand admission will be 25 cents, or boxes
holding 6 persons may be secured for \$3.00 per day.
Tickets for boxes will be on sale at Hankins' drug store.

The Victorious One.
An Indianapolis business man was marooned on election night in 1904 in an Illinois village, says the Saturday Evening Post. Naturally he was interested in the election. He wanted to find out whether Mr. Roosevelt or Mr. Parker had won. He began investigating and discovered that the telephone girl quit at 6 o'clock and that the telegraph agent at the station knocked off work after the evening train went through, which was rarely later than 6 p. m.

At 8 o'clock the landlord shut up the hotel, telling his guest to take the room at the head of the stairs when he was ready to go to bed. No news was to be had, and the business man went to bed, that being all he could do. Next morning he was awakened by the heavy tread of boots on the plank sidewalk. He threw up the window and asked the passerby, "Say, who was elected?"

"I was, by heck," replied the man proudly. "Third term for constable."

He "Dassent."
The selection of the right word to convey one's meaning is sometimes more important than the rules of grammar. So it appeared to the bridge policeman, who is an alert sociological student. An east side resident of foreign birth was taken before the magistrate in one of the police courts charged with a trivial offense.

"Tell him he must not do it again. He is discharged," the magistrate said to the policeman on the bridge.

"The judge says you dassent do it. Understand?" almost shouted the policeman to the prisoner.

"Hold on, officer; I didn't dare him to break the law again. I said 'must not.'"

"That's all right, your honor. He understands what I said better'n he would what you said," explained the policeman. And the prisoner seemed to think so too.—New York Sun.

Riding Away With the Bride.
In many of the border counties of England the quaint old bridal customs of hundreds of years ago are still in vogue. The parents carefully abstain from appearing at the marriage ceremony, clinging to the idea that the bridegroom still rides away on a foaming steed with his bride behind him as in the good old days. The brides prefer the custom to the modern method of being given away at the altar in the orthodox fashion.

Love and Finance.
Omaha folks are telling of the ardent wooing of a belle of that town by an Italian count, whom the young lady met last year while touring the continent with her mother. The count hastened to America soon after the arrival home of the object of his attention and, presenting himself at the Omaha office of the father, unburdened himself of his sentiments.

"I love her! I love her!" he exclaimed dramatically. "I desire ver' mucha to marry her!"

The old man eyed the titled person narrowly. "Well, count," he finally asked in a resigned way, "what are your lowest terms?"

The Color of Water.
The waters of the sea, lakes, rivers
and streams in general are very often
colored. For instance, the water of
the Mediterranean sea is not colorless,
but greenish-blue; also there is a brilliant
red river in South America. The St.
Lawrence, in Canada, is pale green and
the Ottawa golden brown. Where
these two rivers meet quite frequently
whole broad patches remain unmixed.
Here is a gold patch and there a green
one. Otherwise than this water re-
flects the colors of its surroundings,
and a so called "Emerald pool" in the
White mountains is green because the
birches on its borders in early summer
are brilliant green. The Blue grotto,
in Capri, Italy, shows a remarkably
rich color, near to green-blue, because
all the light received in that grotto
comes through the water at its en-
trance, and, as has been said, the Med-
iterranean is green-blue. The water
of the geysers in the Yellowstone park
are also colored by natural mineral
dyes. You can dye your own glass of
water by a piece of the bloodroot plant.
Try it. That will be a vegetable dye.—
St. Nicholas.

Paderewski's Distinction.
There was a day when Paderewski's
English was not fluent. One evening
before a choice company in his ele-
gant apartments in New York he was
showing a few highly flattered callers
how to do this, that and t'other on the
keys of his grand piano, explaining in
bad English as he went. Of course the
man was present who is ever ready to
supply a word when a speaker hesi-
tates. The famous artist, landing with
both hands as if he had just dropped
from the ceiling, exclaimed, "Harmon-
ny!" All applauded the perfect con-
cord. He shot down again like a tri-
phammer and would have exclaimed
again, but the word refused to come.
"What you call—er—er—" "Discord,"
put in the supplier of words. Paderew-
ski's hair stood straight out, and his
face was white and red with anger.
Jumping up from the stool, he sput-
tered: "Deescort! No! With me a
deescort is impossible!" He would
not be persuaded to touch the instru-
ment again that night. The uninten-
tional insult struck deep.

No Sense of Humor.
"Fog Eye" Smith of northwest Wy-
oming bore an appalling facade. His
style of beauty was a blight. Depend-
ing upon his horrific exterior, he was
in the habit of trying to awe newcom-
ers. On one occasion, affecting some
displeasure at the manner in which
a pallid stranger watered his liquor,
Mr. Smith announced, frowning, that
unless he detected immediate amend-
ment he would send the neophyte
home in a market basket. "Which I'll
sure tear you up a whole lot," said
Fog Eye. Half an hour later Mr. Fog
Eye was found groping about on the
floor under the poker table hunting
for his glass eye and muttering to him-
self. The stranger asked with some
evidence of impatience what new line
of sentiments Mr. Smith was now har-
boring. That injured resident, glar-
ing malevolently from beneath the fur-
niture, replied, "Which I sure do hate
a man with no sense of humor."—
Argonaut.

Origin of "Watered Stock."
The expression "watered stock,"
which describes so well the expansion
of the stock of a company beyond the
value of the property, originated, it is
said, in connection with Daniel Drew,
who was once the wealthiest and most
unique manipulator in Wall street.
Drew had been a drover in his younger
days, and it was said of him that be-
fore selling his cattle in the market he
would first give them large quantities
of salt to make them thirsty and then
provide them with all the water they
could drink. In this way their weight
was greatly increased, and the pur-
chaser was buying "watered stock."

Hypocrites.
"I despise a hypocrite," says Boggs.
"So do I," says Cloggs. "Now, take
Knoggs, for example. He's the biggest
hypocrite on earth. I despise that
man."
"But you appear to be his best
friend."
"Oh, yes. I try to appear friendly
toward him. It pays better in the end."

The Final Transaction.
"Father," said little Rollo, "what is
the ultimate consumer?"
"He is the last person, my son, that
an article reaches in its commercial
existence."
"I know what you mean. He's a
man who goes into a hotel and orders
chicken hash."—Washington Star.

Queer Men.
"Some men are so queer!"
"And you are going to tell me of one
particularly queer one."
"Yes. It's Mr. Barberton. His wife
used to beg him for nickels and dimes,
and now he's cheerfully paying her a
hundred a week for alimony."—Cleve-
land Plain Dealer.

Fearless.
"Whitcomb is an independent think-
er."
"He is?"
"Yes; he even dares to say the clock
in the railroad station is wrong."—
Buffalo Express.

Dying to Tell.
"Jack, Dolly told me the most excit-
ing secret and made me swear never
to tell a living soul."
"Well, hurry up with it. I'm late
for the office now."

His Status.
"Well, my little man," inquired a
visitor pleasantly, "who are you?"
"I'm the baby's brother," was the
ingenious reply.—Truth Seeker.

An Anecdote of General Jackson.
General Jackson while on one of his
journeys to Tennessee about the time
of the nullification excitement arrived
at a Virginian village in a very im-
patient state of mind, both with public
affairs and with the state of the roads.
The president was entertained as a
guest at the house of a lady in the vil-
lage, and, although he tried to be po-
lite, the state of vexation which he
was in affected him visibly.
His hostess at the supper table was
much alarmed to see the general swal-
lowing with great rapidity a cup of al-
most boiling hot tea.
"Wait—wait, general!" exclaimed the
lady. "Let me give you some cold wa-
ter."
"No, thank you, ma'am," said the
general, continuing to drink.
"But I don't see how you can drink
that boiling hot tea without scalding
yourself."
"No wonder you can't, ma'am," said
Jackson. "I am scalding myself."
"But, sir, why do you?"
"Good gracious, ma'am!" exclaimed
the general. "Don't you see that I
want to scald myself?"
The lady refrained from making any
further suggestions as to her distin-
guished guest's comfort.

Mercury Laden Swords.
Inserting running mercury in the
backs of swords was a comparatively
common practice among the Italian,
French and Spanish swordmakers of
the sixteenth and seventeenth centu-
ries, but it was more of a fancy than
anything else, for it never came into
general use. It was not, of course,
used for rapiers or the lighter kind of
swords, but for the heavier cutting
swords. The method was to cast the
blade rather broader at the back than
usual, with a hollow running down it.
This was half filled with quicksilver
and sealed up. The idea was that when
a blow was struck with such a sword
the quicksilver would fly to the point
and so increase the weight of the
blow. This theoretical advantage, how-
ever, did not at all counterbalance the
general clumsiness of the weapon and
its unhandiness in guarding, and so
the mercurial swords, as they were
called, from which their ingenious in-
ventor hoped so much, were rather
military curiosities than practical suc-
cesses.

Tale of Two Fish.
A story is related of a Manchester
fisherman who once tried to lure the
dainty trout from some of the nearby
brooks. The fisherman did not get a
bite in the brooks. He drove back to
Manchester rather disheartened and
went to a restaurant to get something
to eat. He asked the restaurant keep-
er if he had any trout and received an
affirmative reply. He ordered some of
the trout for his supper and then told
the proprietor that he might put two
or three of the uncooked fish in his
fish basket out at the door, as he
didn't care to go home and receive the
rally of his friends. The proprietor
of the restaurant told one of the clerks
to carry out the order, and it was sup-
posed to have been done faithfully.
But the clerk was not very alert,
and when the fisherman got home
and opened up the fish basket to his
astonished wife there reposed two fine
salt mackerel, and the fisherman has
not got through explaining yet.—Man-
chester Union.

A Little Too Much.
"A wife has a right to expect much
of her husband," remarked the philo-
sophically inclined person musingly.
"Yes, I suppose she has," replied the
meek appearing man with wilted look-
ing whiskers. "I suppose she has, but
when she expects him to live up, stead-
ily and without swerving, to the motto
on her first husband's tombstone I
somehow think she is expecting more
than she really ought to expect from a
common, everyday, earthly man."

Her Nationality.
When small Sigrid made her first
appearance in an American school,
says Harper's Magazine, she was ask-
ed the usual puzzling questions, one
of which was:
"What is your nationality, Sigrid?"
"Sigrid tossed her flaxen braids.
"I'm an American of Norwegian de-
sign," she said promptly.

Discretion.
"You say you left the house this
morning and then went back. Don't
you know that's unlucky?"
"It would have been a blamed sight
unluckier for me if I hadn't gone
back."
"Why so?"
"My wife called me."—Lippincott's
Magazine.

A Family Affair.
Casey's wife was at the hospital,
where she had undergone a serious op-
eration a few days before.
Mrs. Kelley called to inquire as to
Mrs. Casey's condition.
"Is she restin' quietly?" Mrs. Kel-
ley asked.
"No, but I am," said Casey.—Ex-
change.

His Earthly Task.
"Do you think the deacon will be
entirely happy in the hereafter?"
"Why not?"
"I fear the good man will feel lonely
with no church mortgage to lift."—
Louisville Courier-Journal.

Felt Good.
"Don't you honestly believe there is
more good than evil in the world?"
"Ah! You've found a dollar you
didn't know you had, haven't you?"—
Chicago Record-Herald.

It takes a strong man to be mean.
When I give a tip 'tis not because I
want to, but because I'm afraid of
what the waiter'll think.—Mr. Dooley.
